

Welcome

It is with great pleasure that I welcome you to the website of Morayfield State High School.

As you peruse this site I trust you will become better informed about both the range of programs and the opportunities that exist for our students.

At Morayfield High School our focus is upon maximising student achievement. To this end we offer a wide range of courses and activities designed to enhance the future prospects of our young people as they make their way in a very competitive world.

Morayfield High is approaching its 25 th anniversary and has achieved a proud record for educational success over that period. This rightly includes - but is not limited to - academic achievement. This school ethos embodies a holistic approach that fosters the personal and social development of our students along with an emphasis upon academic achievement.

Our school Values, which have been determined by extensive consultation within both the school community and in the wider community, are central to all that we do at Morayfield High. They uphold traditional values and expectations while recognising the changing needs and demands of modern society. The School Values affirm appropriate and consistent behaviour in an environment focussed upon learning, co-operation and respect.

The school experience is a significant part of every young person's life. At Morayfield High we hope that it will be a rewarding and fulfilling one.
