School Profile

Morayfield State High School was opened on 27 January 1981. In its first year it catered for Year 8 students and by May 1981 enrolment had reached 133 students. From these humble beginnings Morayfield State High School has grown into a school of over 1200 students in Years 8 to 12.

At Morayfield we are focused on maximum student achievement. To this end, we offer a wide range of courses and activities designed to enhance the future prospects of our young people as they make their way in a very competitive world. We have built productive partnerships with industry, tertiary institutions and community organisations which support student transition from school to work. The school ethos embodies a holistic approach that also fosters the personal and social development of our students. The school has developed a strategic alliance with our local primary schools through the Morayfield Coalition of Schools and works closely with them to promote public education and to produce better outcomes for students in the middle schooling sector.

Our community values affirm appropriate and consistent behaviour in an environment focused on improving performance. Our Aim High program is based on three core values— Respect, Responsibility and Cooperation. The program provides positive behaviour support and helps create a positive learning environment by developing proactive whole-school systems to define, teach and support appropriate student behaviours. We have an outstanding staff team who are committed to providing our students with quality learning experiences. Staff at Morayfield build strong relationships with students and their families to encourage success, improve performance and monitor students’ well being.

Morayfield State High School is a dynamic, growing and ambitious school where we seek to gain the best outcome for each and every student. We are delighted to welcome you to our school community and hope that your school experience is a rewarding and fulfilling one.

Our School Values Are:

Learning
Respects for Ourselves and Others
Working Together
Honesty and Fairness
A Pleasant and a Safe Environment

We learn from our experiences and use this to improve things for the future.
Viewing and treating others and ourselves as individuals of worth.
People working in harmonious and co-operative manner to focus on solutions and positive outcomes free from criticism and blame.
Communication and behaviours that reflect truthfulness and openness and equitable treatment for all.
Attractive physical surrounding that are clean, well maintained and safe. An environment that values the expression of diverse opinions, free from intimidation, bullying and harassment.

Statement of Purpose:
Our school is committed to the development of each individual and the economic, social and cultural contribution that each person can make to our community. We aim to provide a high quality education that is relevant to the needs of individuals, provides multiple pathways for students and engages student interest.
We are a school that is:

Achieving Together.
Our goal is to instil in students a love of learning, to have all students learn well and become life-long learners. We will achieve this by focusing on:
• Improving literacy and numeracy
• Success in subjects
• Vocational Training
• Personal Growth
• Communication skills
• Sporting skills
• Informed citizens
• Social skills
